Superintendent of Schools

ALBERT P. KNIGHTLY

Superintendent's Report

To the Superintending School Committee and the Citizens of Clarksville School District:

General

The future progress of our schools depends largely upon our present effort. What are we doing today, as a community, that has a bearing on what we hope our schools will be, a year from now? It is paramount that we know what we want and that we persist in seeking it, whether it be for ourselves or for the boys and girls of our schools.

There will never be a dearth of opportunity for young people with vision, faith and determination. Vision can be developed, likewise faith and determination. Ours is the task of instilling these concepts.

We can all take pride in our schools and share in the common purpose to make them better. Our schools symbolize the aspiration of our people and are the foundation of that equality of opportunity for which democracy stands.

Enrollment and Attendance

The enrollment is at present the largest in the past three years. There are eighteen in each room.

There were fifty-six tardinesses last year, which is higher than usual. The percentage of attendance for the building still remains quite low, 91.64 for the past year.

A word of commendation goes to Rolland Richards and Donald Forbes, who were not absent or tardy during the entire school year.

Buildings and Equipment

The building is in good condition. The desks were all varnished, floors oiled, new teacher desks purchased and the usual minor repairs made during the summer months.

The school lot was enlarged by the purchase of adjourning land to the west. Through the special appropriation of last March, it was possible to grade, gravel and fence the entire school lot. We now have a splendid play surface. I hope that it may be possible to add some additional playground equipment each year.

Health

The following report will give you some idea of the work that has been carried on by Ethel Sturgis, the school nurse.

Individual Inspections			307
Home Calls			9
Treatments at School			34
Physical Defects		Improved	Corrections
Teeth	14		6
Tonsils	8		1
Vision	9		2
Hearing	4		0
Skin Diseases	2		2
Pediculosis	6		6
Chicken Pox	5		5
Malnutrition	3	3	

There are many physical defects that should be corrected. Poor eyesight, infected teeth and tonsils are the most common offenders and possibly the most dangerous.

Physical defects of childhood, if not corrected, may yield in later years bodily or mental breakdown or failure in life work. It surely is worth the effort today to prevent the possible tragedy of tomorrow.

Notes on the Budget

The total amount of the School Board's 1938-39 budget is $5,327.00 as compared with their budget of $5,256.00 for 1937-38. The district has had for the past few years a balance of over $1,000.00. This balance has been used to enlarge and fence the school lot.

With a State Aid allotment of $376.03 it will therefore be necessary to raise by taxation $4,950.97 to balance the School Board's budget as presented. You will recall that $5,1000.00 was the last year's total appropriation.

Teachers

The teachers this year are: Grammar room, Alma Chappell and Primary room, Hallie Weir. Both were graduated from Plymouth Normal and this is their third year in Clarksville.

Conclusion

I take this opporunity to express my appreciation to the members of the school board, parents, teachers and friends for the interest and support that they have given to the schools during the past year.

Respectfully submitted,

ALBERT P. KNIGHTLY,

Superintendent of Schools.
